

COL. ROBERT E. SCHEETZ, CHIEF OF POLICE

METROPOLITAN POLICE DEPARTMENT

CITY OF ST. LOUIS 1200 CLARK AVENUE ST. LOUIS, MISSOURI 63103

Mr. Bob Evans
Lindco Distributing Co., inc.
Box 133B St. James Road
Edwardsville, IL 62025

Dear Mr. Evans;

I want to take this opportunity to thank you for introducing POWER UP to the St. Louis Metropolitan Police Department. After six months of using Power Up in our entire fleet of 728 vehicles we are absolutely thrilled with the benefits we have received.

We have experienced an overall reduction in fuel consumption of 11%. Our oil analysis program has proven a better than 50% reduction in engine wear. Our transmission repair work has reduced by 33%, and we have not lost a single engine yet this year. (Last year before the introduction of POWER UP in our fleet we lost 17 engines).

As you know when we first met last fall I was very skeptical about your claims. During my many years of experience as fleet director for the department I have seen many products come and go. None of them ever gave us the benefits they claimed. POWER UP is not like any product we have tried before. We at the St. Louis Metropolitan Police Department are absolutely convinced that the lubrication technology POWER UP provides will save us well over \$100,000.00 this year.

I'm sure that there are many fleet administrators out there who are experiencing the same types of budget problems as we are. An aging fleet, soaring costs, and little or no revenue to replace vehicles. POWER UP is definitely going to benefit anyone who is concerned with these problems, and with saving money for their organization.

Thank you again for introducing POWER UP to us.

Sincerely,

Eugene T. Broaders
Director of Fleet Services
