FROM: Jimmy Johnson  
Merit Marine

Dear Kenny,

I just want you to know what a good product you gave me to use. As you know, I had been very skeptical about using any additives or fortifiers in my racing engines. However, you continued urging me to try Power Up. Now I'm glad you were so persistent! I used Power Up in my MOD-D racing boat with a Yamaha engine. I not only won the race, I feel Power Up saved the engine, because of a fuel problem we had during the race. When we examined the engine back at the shop, we were amazed by the minimal wear and damage to the cylinder walls and pistons. The engine should have blown up! After all this, you and Jussi did the demonstration for us at Merit Marine, and we saw why Power Up saved the engine.

Thanks for introducing us to a great product, Power Up!

Sincerely,

Jimmy Johnson,  
Merit Marine racing Team.
